

Please send in a copy of your work- and residence permit

I am writing because I need some documentation from you to be able to process your application for unemployment benefits.

On your availability statement (*ledighedserklæringen*) you have written that you do not have a permanent residence- and working permit in Denmark.

The condition for receiving unemployment benefits is that you can start a full time job (37 hours a week) without notice.

It might influence your right to unemployment benefits, if your working permit is conditioned by the amount of hours you are allowed to work, or the period you are allowed to be in Denmark for example.

I am therefore requesting that you send us a copy of your work- and residence permit, so I can process your application.

You are welcome to call us if you have any questions. You can also send a message through our self-service or send an e-mail to kontakt@aka.dk.

Kind regards
